EDUCATION

Loyola Marymount University

Los Angeles, California

Bachelor of Science in Computer Science, Minor in Statistics and Data Science Aug 2021 - May 2024

- Dean's List (5 Semesters), Graduated with Distinction - Cum Laude

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL, CSS, HTML, R, Cypher (Neo4J)

Frameworks/Libs: React, React Native, Next.js, Tailwind CSS, Headless UI

Tools/Platforms: VS Code, Git, GitHub, Vercel, Google Cloud Platform, Node.js, Firebase/Firestore

EXPERIENCES & MENTORSHIPS

Compilers Teaching Assistant, Loyola Marymount University - Los Angeles, California Spring 2024

- Assisted Computer Science students enrolled in an upper-division Compilers class with their homework problems and provided guidance on debugging code multiple times a week (as needed).

Data Challenge Finalist, Meta - Los Angeles, California Summer 2022

- Chosen as one of 86 undergraduates for a competitive five-month data science mentorship with mock interviews and technical workshops.
- Learned how to present data analysis and product pitches in meetings with Meta Data Engineers and Data Scientists.
- Analyzed a large streaming service dataset using Excel and Python to create insights and visualizations for a final pitch.

Computer Science Summer Institute Student, Google - Los Angeles, California Summer 2021

- Completed a competitive 4-week mentorship focused on JavaScript processing and creative coding, taught by Google Engineers and Loyola Marymount University faculty.
- Developed 12 individual JavaScript projects, gaining hands-on experience with functions and data types.
- Collaborated on a project using Text-to-Speech and Teachable Machine APIs, presented to Google employees.

PROJECTS

SmartPlanner AI Web App React, Next.js, Tailwind CSS, Headless UI, Gemini AI, Node.js, Vercel

- Built an AI-powered app to break yearly goals into quarterly, monthly, weekly, and daily steps.
- Integrated Gemini API for dynamic goal suggestions and detailed weekly/daily plans.
- Created a responsive multi-step UI with React, Next.js, Tailwind CSS, and Headless UI.
- Deployed on Vercel with secure API key management and smooth user interactions.

Marketplace Mobile App React Native, Firebase/Firestore, Auth (Clerk), Figma

- Developed a React Native marketplace app from a student proposal.
- Designed preliminary UI in Figma; Implemented UI in React Native, including listings, favorites, and interactive item pop-ups with photos and pricing.
- Integrated Firebase/Firestore and Clerk for listings and verified user accounts.

Book Tracking Web App React, Firebase/Firestore, Google Books/NYT/Open Library APIs, Chart.js

- Built a full-stack book tracking app with React, Firebase/Firestore, and multiple APIs.
- Implemented features to track reading progress in Chart.js and to organize virtual bookshelves.
- Handcrafted responsive React components with Tailwind CSS and implemented Google Auth.
- Participated in bi-weekly stand-ups and peer feedback sessions.
